

Libec - NAB News Release

Libec Camera Support Equipment at NAB2012 (Booth # C9519)

28th March, 2012 - Libec, a brand of the HEIWA SEIKI KOGYO CO., LTD. based in Japan, is pleased to announce wide range of new products at the upcoming NAB2012. Libec presents our new SWIFT JIB50 Telescopic Jib, REMO30 Remote Head, ZFC-5HD All-in-One Zoom and Focus Remote Control, CU30 Remote Control Unit, "LX" Tripod Systems and renewed "RS" Tripod Systems.

SWIFT JIB50 Quick, Compact, Dynamic. Versatile player at any location.

The SWIFT JIB50 is equipped with a telescopic arm extendable to 90cm/35.5" and offers operators higher angles for that perfect shot. The SWIFT JIB50 has a quick and easy set up. This telescopic jib is smooth, portable, lightweight, and offers all-round support. Together with our REMO30 Remote Head and ZFC-5HD Zoom and Focus Control, you can achieve and master smooth operations having complete control of your video shots.

REMO30 Capture your imagination from start to finish.

Every ideal pan, tilt, diagonal movement and speed can be achieved by combining the power of quality pan/tilt motors and speed dials. The REMO30 is a high-grade, high-performance remote head that exceeds your expectations by delivering you the shot you intended. It is equipped with a unique drive system that transmits motor power accuracy. The REMO30 ensures a perfect camera balance and offers smooth camerawork at all times. Cables can be routed through the cable leads to prevent tangling. When mounted upside down, you can achieve a complete bird's-eye shot. This universal remote head can also be used with other equipment such as tripods and jib arms you may already own.

Libec - NAB News Release

ZFC-5HD All-in-One Zoom and Focus Remote Control

The ZFC-5HD is a universal Zoom and Focus Remote Control for LANC(Sony/Canon) and Panasonic cameras. The ZFC-5HD offers precise and variable zoom speed control, via a selector switch.

The ZFC-5HD is equipped with a focus control button for LANC and a focus dial for Panasonic cameras. Exclusively for LANC cameras, the ZFC-5HD is equipped with a 2-step zoom-speed control and has an on/off remote power switch function.

CU30 Remote Control Unit for REMO30 Remote Head

The CU30 Control Unit gives operators an advantage by splitting their duties into two functions. While one operator concentrates on handling a crane or jib arm, the other operator can focus on the remote head while using the control box. This conveniently allows the remote head operator to move around freely. Using the supplied tripod adapter, the unit can be also mounted on a tripod for remote access at long ranges.

LX5 / LX7 New Tripod System. "Best value in the range"

Brand new two-stage 75mm ball diameter tripod systems with an outstanding rigidity. Payload capacity is up to 4kg/9lbs for LX5 and up to 8kg/17.5lbs for LX7. Trace every motion from start to finish with its supreme torque system. Equipped with a sliding plate (sliding range of +/-40mm/1.6"). In addition, LX7 is also equipped with 3/8" spare screw.

Advanced "RS" Tripod System with upgraded functions

All new RS models are equipped with an extendable panhandle with rubber grips for precise camera movements. In addition, all RS fluid heads are equipped with LED bubble levels for easy level adjustments in the dark.

RS-450R and RS-450RM tripods can now extend up to 173cm/68" in length when using a Libec floor spreader. In addition, a highly developed durable RC-50 padded soft case will be included with both RS-450R and RS-450RM tripod systems. The RC-50 tripod case is equipped with a bottom protector, shoulder pad, and handle grip.

Libec Live Booth Events at NAB

Located at booth C9519, we will have entertainment and Easy-To-Use demonstrations featuring professional jib and crane operator George Ayrouth with MVT Productions. Jib operations and skill techniques will be offered during NAB show hours. Looking forward to seeing you all at NAB, Las Vegas !
